SUMMARY

Results-driven and detail-oriented Backend Developer with 2+ years of experience building and maintaining scalable, high-performance systems. Solid expertise in server-side logic, RESTful API development, and database management. Self-motivated, disciplined, and effective both independently and within cross-functional teams. Skilled at optimizing backend performance and enhancing user experience through clean, efficient code. Fast learner with strong communication skills and a passion for solving complex problems.

KEY SKILLS

- Problem Solving & Debugging • Backend Developer • MYSQL Management • Web Development
- Api's for Application Development • Query optimisation • Unit Testing

TECHNICAL SKILLS

Programming Languages/ Tools: JavaScript, Node.js, Express.js, PHP, Laravel, Laravel Nova, SQL,
Web Design: HTML5, CSS, JavaScript, Bootstrap
Database: My SQL, MongoDB

EDUCATION

Bachelor Of Computer Application(BCA)	Jun '19 - Oct '22
Om Sai Degree College • Secured 8.32 CGPA	Bengaluru, IN
PUC	May '17 - Feb '19
Om Sai Degree College • Secured 72%	Bengaluru, IN

KEY DEVELOPMENT PROJECTS

- **Music Player | Tech Stack: React, React-dom, React-router-dom, Bootstrap, Bootstrap-icons, Spotify | Feb '2023**
 - Features : Responsive, Artist Search field, Load Tracks, Tracks.
- **JOB API| Tech Stack: React, Node JS ,Express JS, JWT, MongoDB, Bootstrap, Bootstrap-icons | March '2023**
 - User Features: Responsive, Login and Signup User account, JWT Authentication, Apply job.
 - Admin Features: Responsive, Login and Signup User account, JWT Authentication, Create Jobs, Manage Jobs, Delete Jobs, Edit Jobs.
- **E-commerce API's| Tech Stack: Node JS ,Express JS, JWT, MYSQL, Postman, JSON | Nov '2025**
 - Objective: User Registration, User Roles, Product Management, Cart Management, Order Management, Inventory Management .

PROFESSIONAL EXPERIENCE

Backend Developer	May '24 - Present
Soverg Pvt Ltd.	Bengaluru, IN
Backend Application Development • Collaborated with cross-functional teams as a Backend Developer to build and maintain mobile applications • Designed and developed scalable RESTful APIs using Laravel to support mobile and admin applications • Executed secure and efficient backend workflows to support end-to-end e-commerce operations	
Software Design & Architecture • Contributed to system design by developing modular, maintainable, and high-performance backend components • Integrated Laravel Nova to design and manage admin dashboards for application control and monitoring • Ensured adherence to best practices in coding standards, system architecture, and API design	
E-commerce & Business Logic Implementation • Built a complete e-commerce backend system, including: User Registration, Authentication & Role Management	

- User & **Admin Approval** Workflows
 - Product Management (**Location-based products**)
 - Cart, Order, and Inventory Management
 - Order Creation, Updates, and Approval Processes
 - Developed **Invoice Generation, download** and order lifecycle management features
- Payment Gateway & KYC Integration**
- Integrated **Razorpay Payment Gateway**, including secure payment handling and webhook processing
 - Implemented **KYC verification** workflows using Aadhaar, PAN, and GST validation mechanisms
 - Safeguarded secure transaction handling and compliance with business requirements
- Cloud Services & Notifications**
- Integrated **Google Cloud Storage (GCS)** for secure file and asset management
 - Implemented **Firebase Cloud Messaging (FCM)** for real-time push notifications
- Administration & Operations Support**
- Developed and maintained **Admin Dashboard** features for managing users, orders, products, and approvals
 - Supported operational workflows by improving backend processes and system reliability
 - Ensured smooth coordination between backend services and mobile application requirements

- Code Quality, Review & Debugging**
- Actively participated in **code reviews**, debugging sessions, and performance optimization
 - Assisted in identifying and resolving backend issues to improve application stability and performance by 20-25%
 - Followed clean code practices and documented APIs and workflows for team collaboration

- Operations Management**
- Determining operational feasibility & proposing solutions by **assessing analysis**, problem definition, requirements, etc
 - Improving **operations by 17%** by conducting systems analysis and recommending changes in policies & procedures

Software Trainee [Web Development] Aug '23 - Feb '24

- Gully System** Bengaluru, IN
- Enhanced project efficiency & code quality by partnering with senior developers on various **Laravel** projects utilizing **PHP & MySQL**, resulting in accelerated project delivery
 - Participated in code reviews and debugging sessions
 - Acquired hands-on experience with **Laravel framework** and web development best practices

- CERTIFICATIONS**
- MERN STACK DEVELOPER COURSE** | Be-practical Tech Solutions | March '2024
 - ONLINE COMMUNICATIVE ENGLISH COURSE** | Om Sai College | Apr '2022

- ADDITIONAL INFORMATION**
- Languages:** Kannada, Telugu, English (Professional)
 - Interests:** Travelling , Cycling and Cricket
